

Policy for Providing Natural Gas Service to Mobile Home Parks

Effective: March 1, 1993

**DELTA SOUTH LOUISIANA GAS COMPANY, LLC
POLICY FOR PROVIDING NATURAL GAS
SERVICE TO MOBILE HOME PARKS**

The Company will make natural gas service available to mobile home parks on either Alternate 1 or Alternate 2 of the following policy:

ALTERNATE 1:

When the rate of return on investment is satisfactory, the Company will provide service through a single meter installation and bill the mobile home park owner on the appropriate commercial or contract rate schedule. Mobile home park owners will provide all downstream piping from the meter location.

ALTERNATE 2:

When the rate of return on investment is satisfactory and where the following conditions are met, the Company will provide the piping for on-site installation and separately meter each individual mobile home.

Condition No. 1 - The mobile home park shall have concrete or blacktop streets and permanent slabs for the mobile homes. Water, sewer, and electrical connections must be provided to each mobile home slab.

Condition No. 2 - An easement for the on-site piping shall be obtained from the land owner at no cost and recorded in the Parish Land records before on-site piping commences.

Condition No. 3 - All separately metered mobile homes will be subject to the same rate schedules, institution of service charges, etc. applicable to any other residential consumer.

Condition No. 4 - A mobile home park not in conformance with Condition No. 1 may have separately metered mobile home units supplied from service lines installed within the park; provided, the park owner agrees to pay for all such service lines in accordance with Company's prevailing schedule of charges for service lines.
